ILLUSTRATED CATALOGUE

—OF—

WINDOW ❋ SHADES ❋ AND ❋ SHADE ❋ GOODS,

VESTIBULE HARDWARE,

Upholstery Goods, Paper-Hangers' Supplies, and Shade-Makers' Tools,

—FROM—

NEW YORK JOBBING BRANCH,

NATIONAL WALL PAPER CO.,

JOBBERS EXCLUSIVELY OF

Wall Paper and Window Shades,

416-422 BROOME STREET, COR. ELM STREET,

NEW YORK.

SHADE DEPARTMENT.

TERMS.

On all goods listed in this catalogue, our terms are:

If paid in Ten Days, Two Per Cent. Discount.

If paid in 30 Days, One Per Cent. Discount.

Longest Time Allowed, 60 Days, Net.

ALL PRICES ARE F. O. B., NEW YORK.

We do not pay freights or equalize freight rates on goods from this department.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

Parties having no Account with us will please send References with Order, that there may be no delay in making Shipment.

NEW YORK REFERENCES PREFERRED.

All Claims must be made AT ONCE upon Receipt of Goods, and must set forth Date, Book, Page and Order Number, as shown by Invoices.

WE SEND UNDER THIS COVER

OUR THIRD ANNUAL CATALOGUE OF

Plain, Fringed and Decorated Mounted Window Shades,

SHADE, UPHOLSTERY AND VESTIBULE HARDWARE

Wall Paper Devices and Paper Hangers's Tools.

We want to impress upon you the fact that we deal exclusively in Wall Paper and Shade Goods, and **by making your selection from this list you may feel sure you are buying the right goods and buying them at right prices, and in ordering by number** you will **save very much time, annoyance and expense.** Keep this list lying on your counter, and refer to it for whatever you want in this line, allowing your customers to consult it freely. By the arrangement as shown by the perforated slip in front of book, you may make this Catalogue do duty as a very superior salesman.

CHANGES IN PRICES.

We desire to distinctly impress upon those who receive this Catalogue, that **"All prices are subject to change without notice."**

IMPORTANT SUGGESTIONS.

State particularly how to ship goods, whether by freight, express or mail. Goods sent by mail are always at risk of purchaser. **Our responsibility on freight and express shipments ceases when we deliver goods to the transportation company.**

Goods sent as ordered cannot be taken back.

In checking a bill of goods, open every paper box, as it is often convenient to pack several articles of a different description under a cover designed for one.

Please destroy your Shade Catalogue No. 3 *for* 1895 *and order from this.*
Order by number and descriptions given, and do not mutilate Catalogue.

Respectfully,

NEW YORK JOBBING BRANCH,
NATIONAL WALL PAPER CO.

January 1st, 1896.

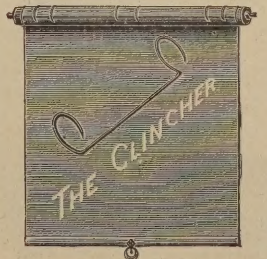
"NATIONAL" SHADE CLINCHER.



Pat. Feb. 22, 1887.

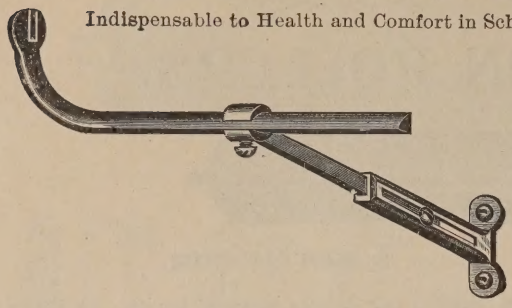
Made from best Bessemer steel. Quickly adjusted. Never wears out. Requires but three clinchers to 3 foot shade. Costs little more than tacks. Cheapest fastoner on the market.

No. 10 for 1 in. and 1¼ in. rollers, per gross $1.00

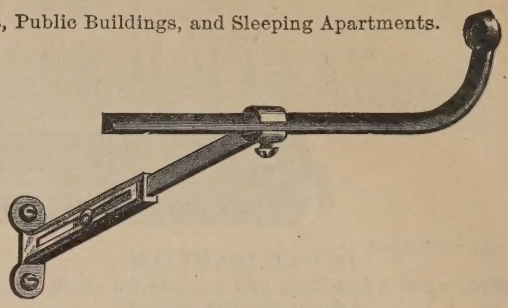
WINDOW SHADE HARDWARE—Continued.

NASH'S ADJUSTABLE SHADE BRACKET.

Indispensable to Health and Comfort in School-rooms, Public Buildings, and Sleeping Apartments.



Showing Left Hand Bracket.



Showing Right Hand Bracket.

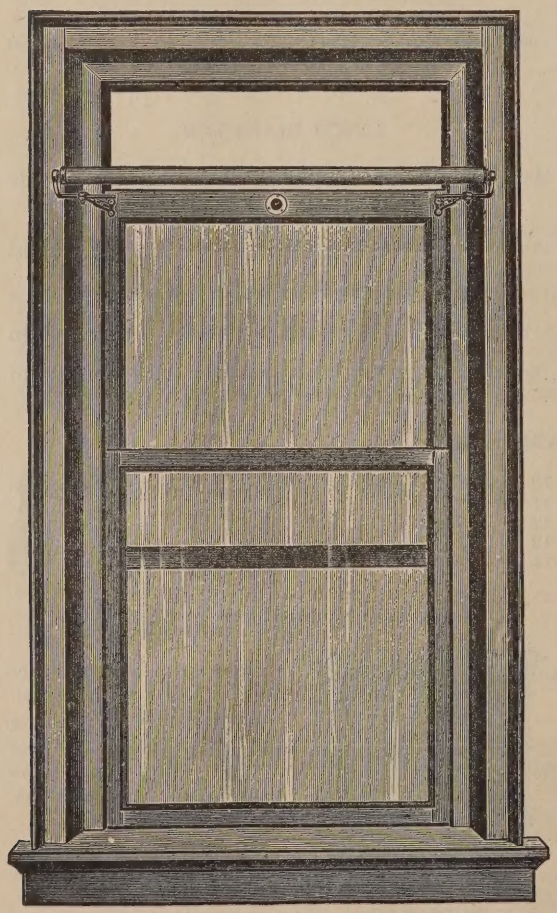
The Adjustable Shade Bracket is a new invention. It is so formed as to fit any depth window jamb and extend out over the casing. By using this bracket the shade is attached to the upper window sash instead of the casing, but allowing it to occupy the same extended position on the casing as with the old style fixtures.

The result is that in lowering the upper sash to admit fresh air or to allow the foul air to escape, the shade is also lowered, allowing the air to pass freely in and out above it, which gives perfect ventilation without the constant whipping and rattling of the shade by the wind.

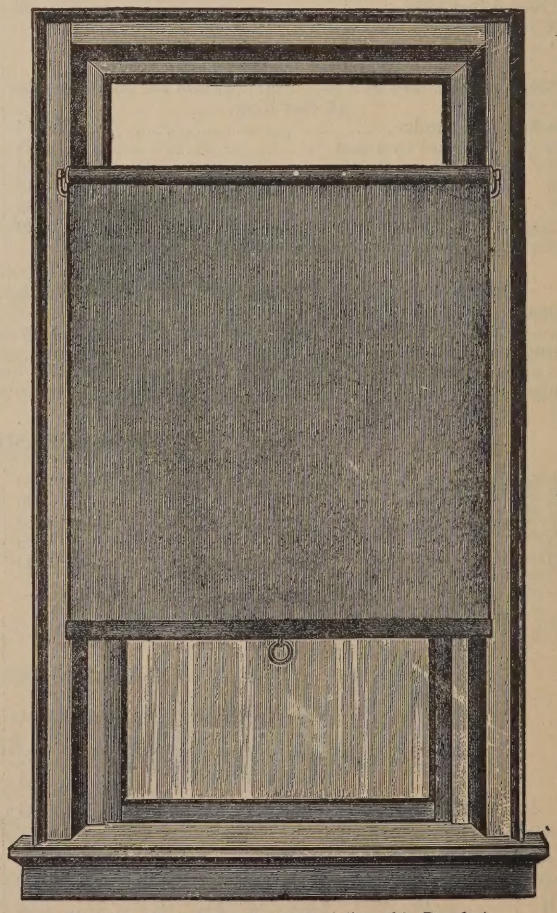
Perfect ventilation from top can be secured, while the shade can cover the lower part of the window.

No. 25 Adjustable to any ordinary window (no roller).....per dozen pairs, $3.70 ; per gross pairs, $42.00

"EFFICIENT," "VERMONT" AND "PEOPLE'S" ROLLERS CAN BE USED IN THESE BRACKETS.



Showing window with Bracket on upper sash, with Shade Roller.



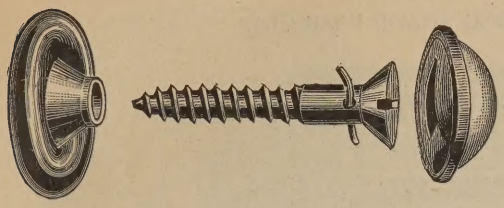
Showing Shade hung by Nash Adjustable Brackets.

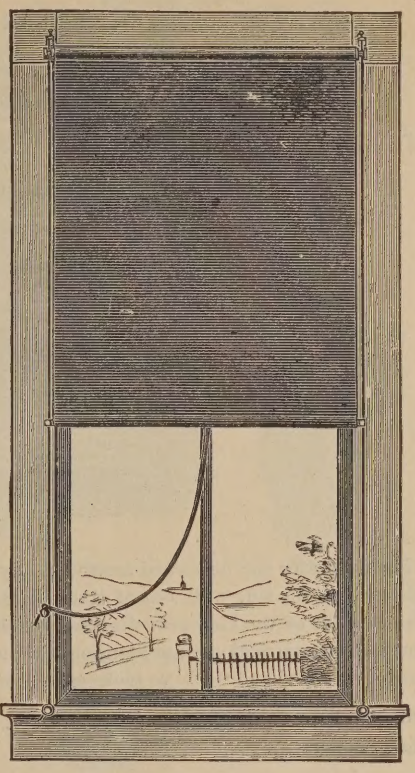
PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

WINDOW SHADE HARDWARE—Continued.

LAKESIDE WINDOW SHADE GUIDE.

An attachment to run the shade straight, and prevent damaging the cloth. Of invaluable use in hotels, schools and large apartment buildings.

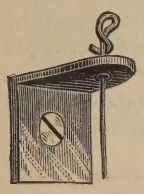


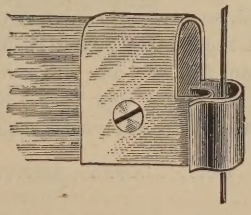


It consists of an L-shaped piece of steel with screw to put up under bracket to hold the wire, 8 feet of copper wire, a screw with perforated head to tighten the wire, with an adjustable porcelain head and a steel detachable device for the end of the slat which runs up and down on the wire. Cuts illustrate the different parts and the complete guide as it is attached to the shade and window frame.

The different parts are packed complete with wire in neat paper box. One dozen sets in a carton.

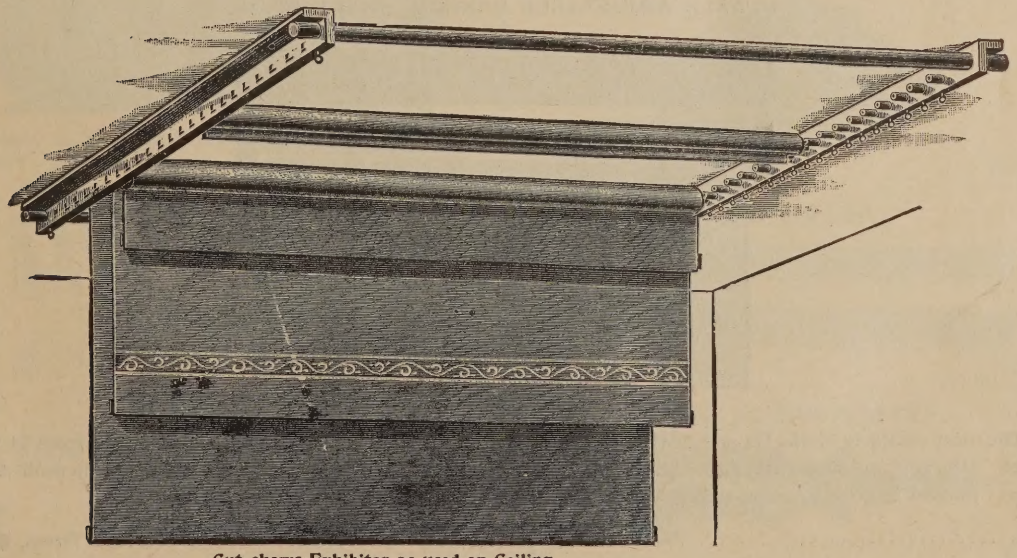
No.	Per Doz.
10	$2.00





ROSE ADJUSTABLE SHADE EXHIBITOR.

For use on side wall or ceiling.

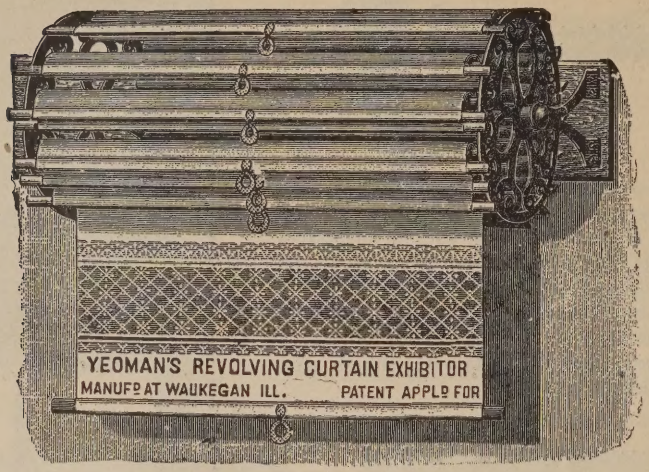


Cut shows Exhibitor as used on Ceiling.

No.		Each.
665	Adjustable, capacity 20 shades	$2.00

WINDOW SHADE HARDWARE—Continued.

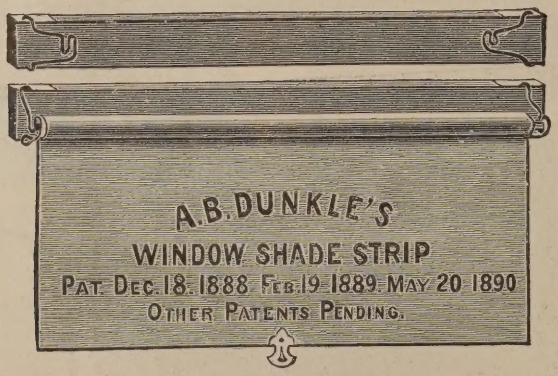
THE YEOMAN REVOLVING SHADE EXHIBITOR.



The Exhibitor can be turned around to any point desired, so as to draw out any curtain for inspection. It can be fastened on the side wall, out of the way of other goods, requiring no floor room to show your samples. It is the best device of the kind ever invented for showing curtains full size, and will save its cost the first year selling "remnant" curtains alone, not mentioning convenience of displaying new ones. Each Exhibitor has 24 Spring Fixtures, all fitted and ready to tack on the curtains, or can be furnished without rollers, if preferred.

Fitted with People's Rollers complete.....Each, $14.00
Without Rollers..... " 10.00

DUNKLE ADJUSTABLE WINDOW SHADE STRIP.



The most complete Shade Hanger in the market. Can be adjusted to suit any width of shade from 34 to 40 inches. Brackets and nails complete with each hanger. Can be retailed at 10 cents each at handsome profit to the dealer. Packed ¼ gross in heavy paper boxes. We do not break boxes.

Price.....per Gross, $18.00

OUR SHADE MANUFACTURING DEPARTMENT.

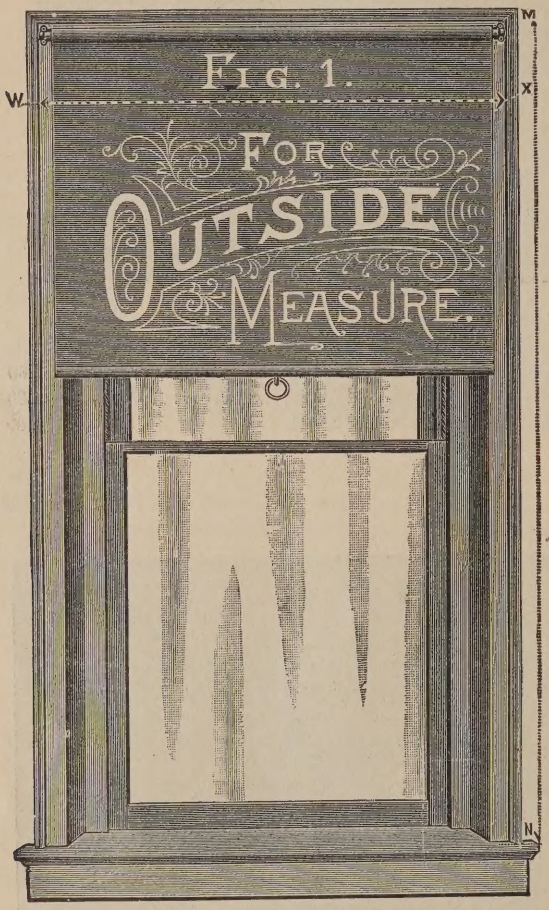
WE make a specialty of manufacturing shades in special sizes for residences, stores, and office buildings. We use only *the best* materials and employ skilled workmen, and guarantee the shades we turn out first-class in every respect. Estimates furnished.

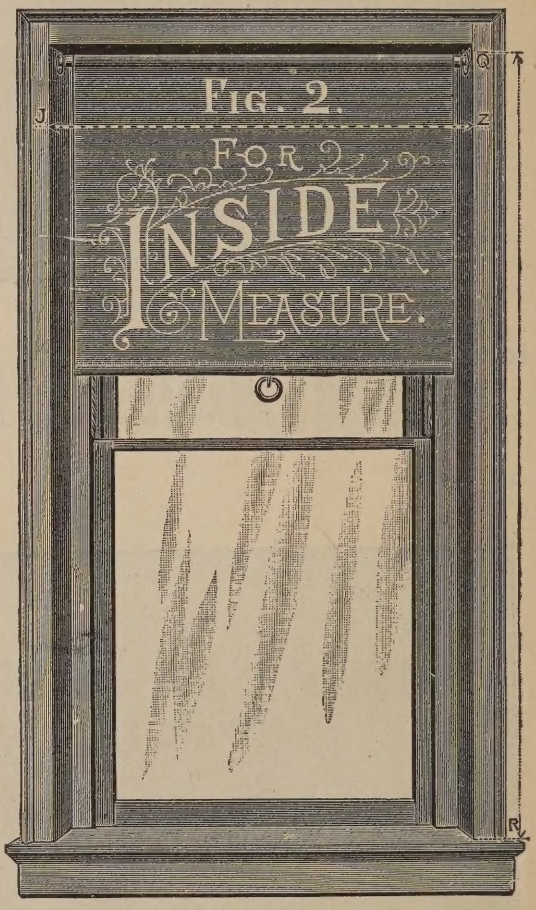
For the benefit of our customers we submit herewith illustrations showing the different methods of hanging shades, and giving instructions for the proper measurement of windows.

All measurements for the width should be made from point to point on each side of casing where brackets are to be placed.

All measurements for the length of shade should be the net measurement from top to bottom of window.

We will make the necessary allowances in width for the satisfactory working of shade, and in length for the hem and turn upon roller when shade is drawn down full length.





When shades are to be hung, as illustrated in Fig. 1, on the outside or surface of casing facing the room, give exact distance from points as designated by *W* to *X*, being extreme distance from point to point where brackets are to be placed, and for length of shade the distance from *M* to *N*, and state in ordering, "outside bracket measure."

The shades when finished will be from 1 to 1½ inches narrower than your measurement, and contain 6 inches more of cloth.

When shades are to be hung, as illustrated in Fig. 2, on the inside or surface of the casing which face each other, give the distance from *J* to *Z*, the exact distance from jamb to jamb of window at points where brackets will be fastened, and for length the distance from *Q* to *R*, and state in ordering, "inside bracket measure."

Measurements for shades hung in this manner should be very accurate, even to a sixteenth of an inch.

Measure each window separately.

State whether shades are to roll from top or bottom of window. In the former the roller is fastened at the top, and in the latter case at the bottom of window.

In hanging shades observe carefully the printed instructions on each roller regarding the proper adjustment of spring.

USE ONLY THE "EFFICIENT" FIXTURES.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

OUR SHADE MANUFACTURING DEPARTMENT.

WE make a specialty of this department of our business, and guarantee the shades which we turn out the best which first-class material and skilled workmanship can produce.

For convenience of our customers we give below schedule for making up shades in special sizes. *For shades not found in the schedule a proportionate charge including only the actual number of yards of cloth used will be made.*

We use only the well-known "Efficient" spring stop roller in our special order work, and mount all shades of this nature on rollers of sufficient size and strength to perform the work required in a satisfactory manner.

SCHEDULE OF PRICES FOR SHADES IN SPECIAL SIZES.

Made from "Onondaga" Hand-Made Opaque, mounted on "Efficient" spring stop rollers—ready to hang.
Prices are for single shades. Sizes are for finished shades,

Lettering in plain shaded gilt letters, $ .50 per lineal foot.
" " gold leaf letters, - - 1.00 " "

Special Note.—In ordering, state whether the measurements given are *cloth* or *bracket* measure, and if bracket whether *inside* or *outside;* see illustration and explanation on previous page. State color of cloth desired; if shades are wanted 48 inches wide or wider, much correspondence and annoyance will be saved if selections of color is made in "Onondaga" goods only, as our other brands of opaque shadings are not manufactured in all widths, and the matching of their colorings in hand-made goods is not at all satisfactory. If any lettering is wanted, inclose a printed card bearing name or names to be used. We cannot be responsible for misspelling where shades are lettered in other than the English language.

See page 10 for list of "Onondaga" colorings. *Sample books mailed on application.* Special colorings will have to be made to order at an extra expense, and the time necessary to make the cloth will be from ten days to two weeks.

See next page for cost of finishing any of above shades with fringes.
See pages 11 to 16 for cuts and description of fringes.

OUR SHADE MANUFACTURING DEPARTMENT.—Continued.

Schedule of prices for shades in special sizes made from Bancroft's "Sun-Fast" Hollands, mounted upon "Efficient" rollers, ready to hang.

PRICES ARE FOR SINGLE SHADES.

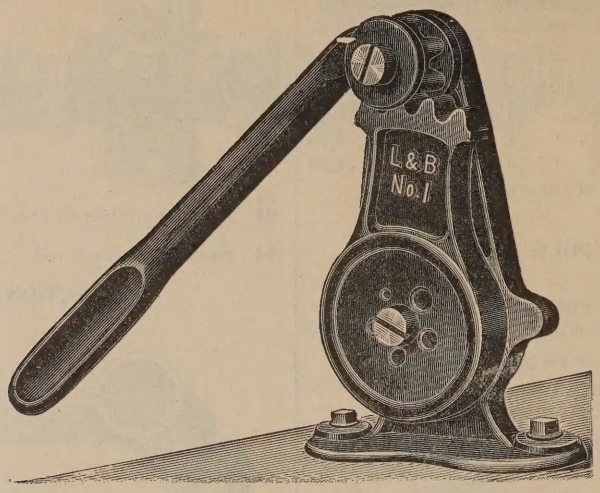
06	Polished brass, 3 inches long, with rubber face, for ¼ inch rod	$1.80
16	Same for ⅜ inch rod	2.00

VESTIBULE ROD CUTTER.

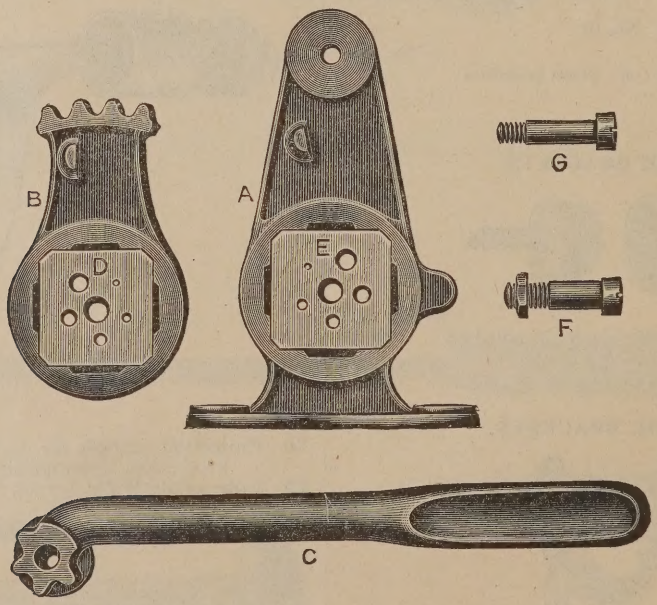
For cutting brass rod. Will cut 1/8 to 3/8 inch wire.



This rod cutter is the best, and by far the cheapest on the market. The above cut represents the complete machine, and we give below cuts representing all the different parts.

The cutting dies are made from the best cast steel, carefully tempered, and of such proportions as to secure the greatest strength and durability.

An important feature, which will commend itself to the customer, is the interchangeability of the parts, enabling the owner to replace a damaged or broken part readily, and at slight cost.



No.		Each
20	Complete for 1/4 inch and 3/8 inch rod	$7.00

When ordering parts separately, order by letter, as given in above cuts.

TELESCOPE EXTENSION VESTIBULE RODS.

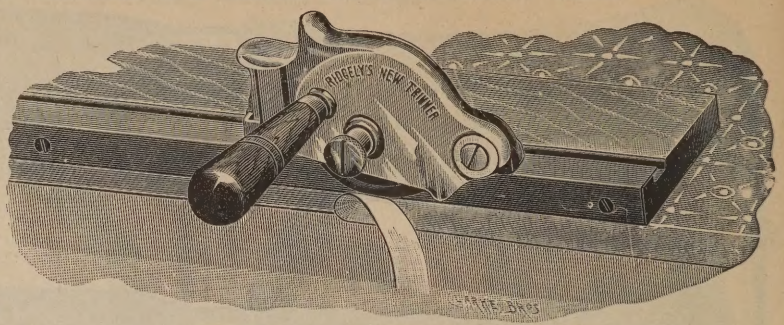
PAPER-HANGERS' TOOLS AND SUPPLIES.

RIDGELY'S NEW TRIMMER AND BRASS BOUND STRAIGHT EDGE.

This Trimmer will cut any thickness of paper, from a brown blank to the heaviest embossed and cartridge papers. It makes the cleanest and truest edge for butting. With it should be used Ridgely's brass-bound straight edge, which has a turned brass track on which the knife or trimmer runs. It is brass-bound on both edges, and can be used like any ordinary brass-bound straight edge, if desired. The whole outfit, which consists of trimmer, straight edge and strip of zinc for the top of table, is a great time and labor saver. With it there is no need of continually hunting knife or shears. When once the trimmer is attached to the straight edge, by sliding it on to the brass track from either end there is no necessity to remove it from the straight edge, from the commencement to the end of any job, and it is always ready for use. Great care should be taken in tacking the zinc to the table, so as to have it perfectly smooth. Each trimmer is nicely nickel-plated, wrapped in paper, and packed in neat paste board box.



Showing Trimmer attached to Straight Edge.

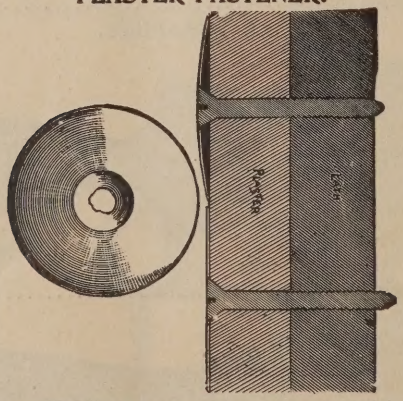
PLASTER FASTENER.



It is the needful thing for fastening loose plastering on walls or ceilings. The Fastener is a round piece of tin, countersunk for screw head, and concaved so that when the screw tightens the outer edge of the tin presses against the plaster. By putting a little plaster of Paris on screw head and around the tin, it leaves a smooth surface, and makes it as sound for paper or calcimine as a new wall.

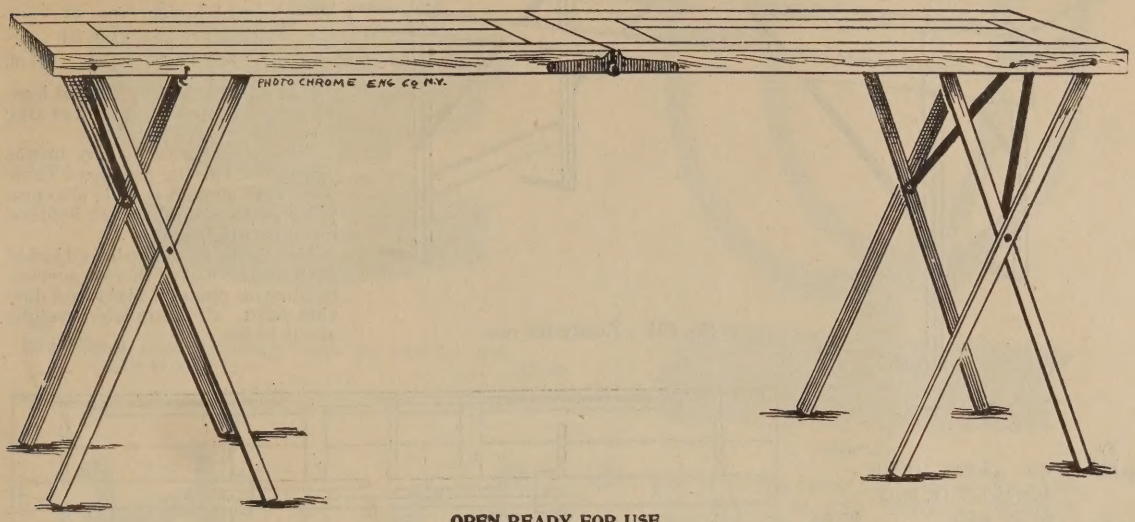
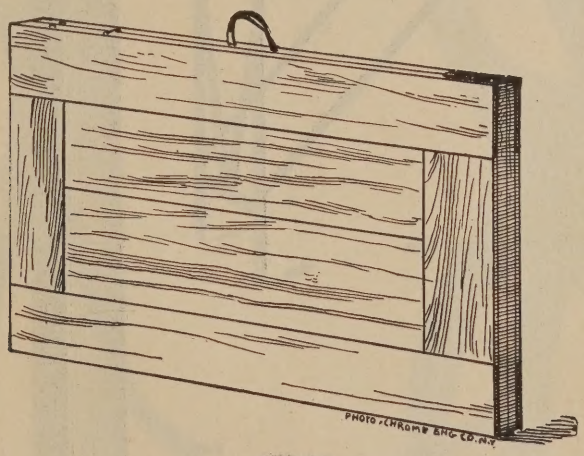
NOVELTY PASTING TABLE.

Patented April 3d, 1894.



OPEN READY FOR USE.

When open is 6 feet long and 22 inches wide, 30 inches in height, and stands firmly on the floor—has rubber tips on the legs to prevent slipping. Is the neatest and best thing ever invented for the purpose; saves all trouble and annoyance of barrels or boxes to put a pasting board on being carried to the rooms.

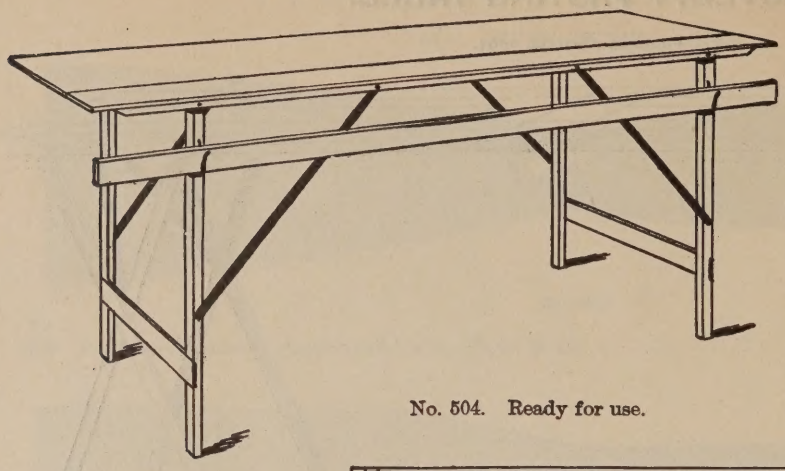


CLOSED.

When folded is a neat box lsss than 3 inches thick, which can be carried in any car, and no objection will be made to taking it into the best room in the house. Room for the tools inside. Also *made to fold lengthwise,* weight only abont 15 pounds. Also made 7 feet in length.

No.		Each.
508	Six feet in length	$8.00

PAPER-HANGER'S PASTING TABLES.



No. 504. Ready for use.

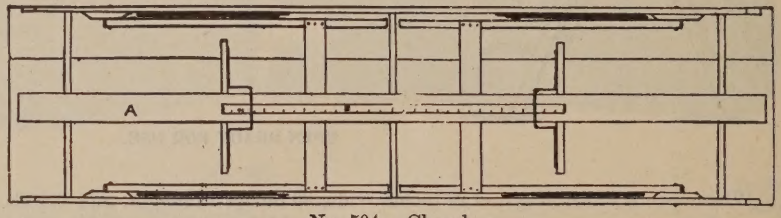
No.		Each
504	6 feet 8 inches long, 22 inches wide, and 30 inches high.	$8.00

Has hardwood frames and legs whitewood top and a strip of zinc six inches wide to cut on.

The zinc is attached by means of grooves, leaving the top of Table level and smooth. It is also provided with straight edge holders, but no straight edge.

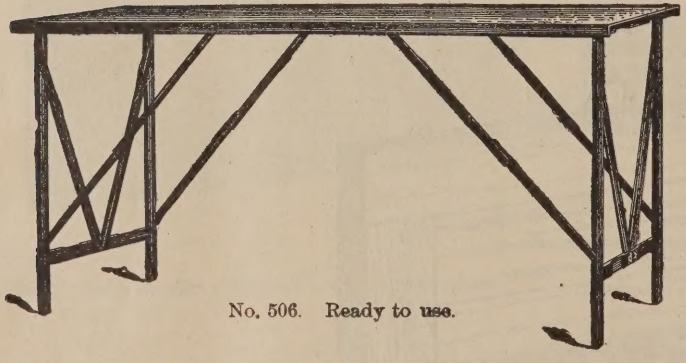
The Table is instantly adjusted without the use of hooks, screws, buttons or pins; is rigid and durable, and, all complete, weighs about 18 lbs.

No.		Per Set
502	Two pieces (with dowels), 7 ft. long, 20 in. wide.....	$2.00



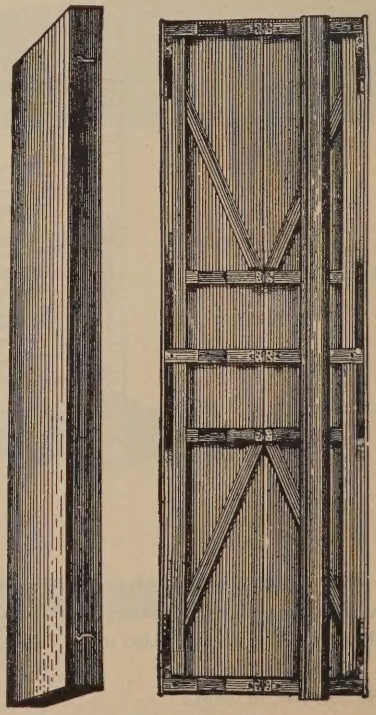
No. 504. Closed.

ADJUSTABLE FOLDING TABLE.



No. 506. Ready to use.

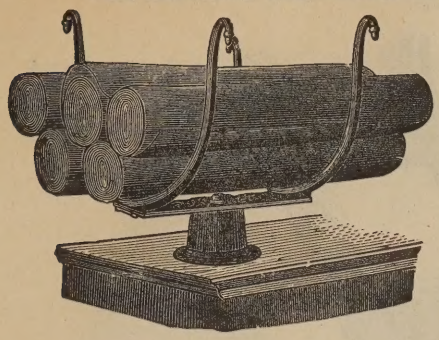
No.		Each.
506	Has folding top and legs attached. Is strong and compact, simple and light, weighiug but 16 lbs. Size, 20 inches wide, by 6 feet long.....	$8.00



Closed. No. 506. Open.

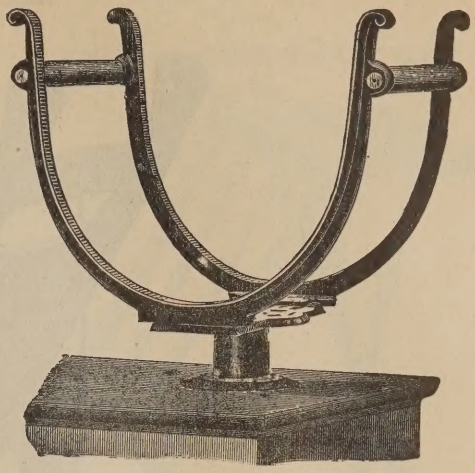
LAKESIDE BUNDLE HORSES.

FOR COUNTER AND FLOOR USE, IN TYING OR BUNDLING WALL PAPER.



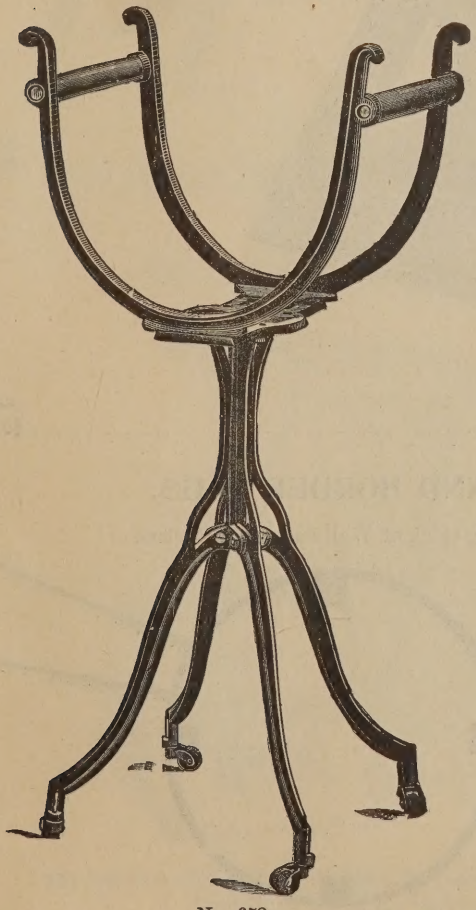
No. 651.

No.		Each.
651	Small iron revolving horse for counter use; holds 25 rolls	$2.00



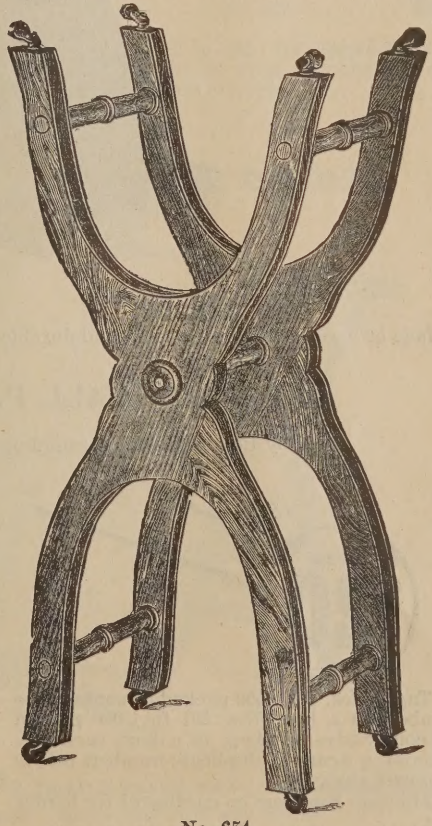
No. 652.

No.		Each.
652	Iron revolving horse for counter use, made of heavy iron with hardwood crossbars, holds 50 rolls	$4.00



No. 653.

No.		Each.
653	Large iron; on four iron legs, hardwood crossbars, castors for floor use	$6.00

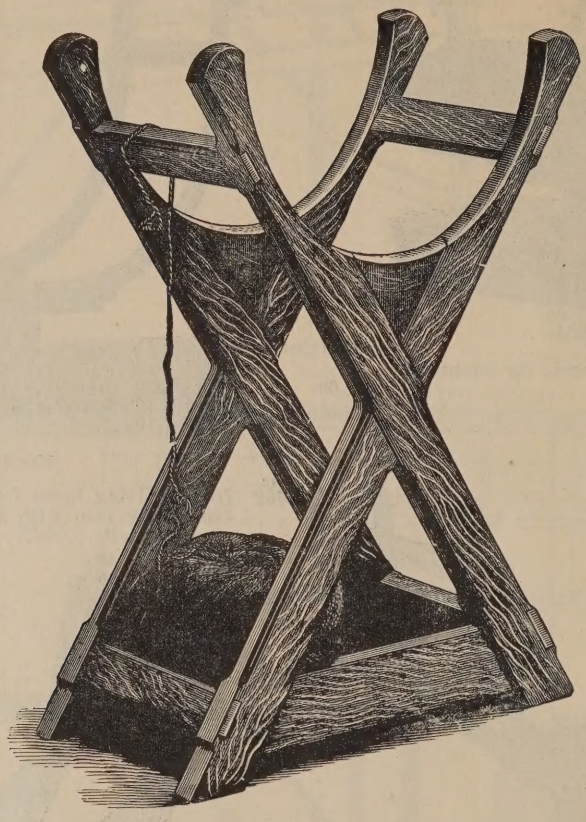


No. 654.

No.		Each.
654	Reversible; hardwood throughout, oil finish, turned rungs, castors on both ends	$6.00

KEYSTONE BUNDLE HORSE.

With Twine Holder.



No. 657.

No.		Each.
657	Made of hard wood, extra strong and durable	$5.00

LAKESIDE WALL PAPER AND BORDER TAGS.

Used by Retail Dealers in sampling and keeping stock of Wall Paper and Borders.

	Per 100.
Border Tags; Nos. 1 to 500 packed 50 consecutive numbers in a box; Nos. 501 to 1,000 packed 100 consecutive numbers in a box; each box containing a card of duplicate numbers (*above cut exact size*)	$2.00
Extra Duplicate Numbers on cardboard for border disc	20
Wall Paper Tags; disc is 2¼ inches in diameter; number pasted flat on tag; numbers range from 1 to 500, in boxes of 50	4.00

	Per 100.
Jobbers' Tags; same as border tag, except that disc is 1½ inches in diameter, containing 12 *plain* labels, which can be removed as they become useless	3.00

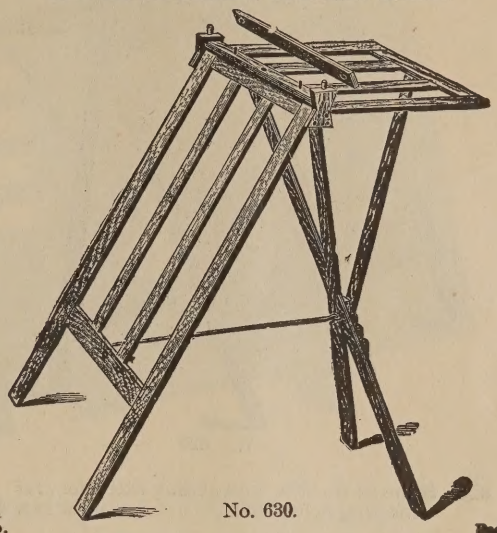
WALL PAPER DISPLAY AND SAMPLE BOOK RACKS.

READING'S WALL PAPER EXHIBITOR.

No. 620.

No.		Each.
620	Cherry stained, nicely covered with imitation upholsters' leather.....	$7.00

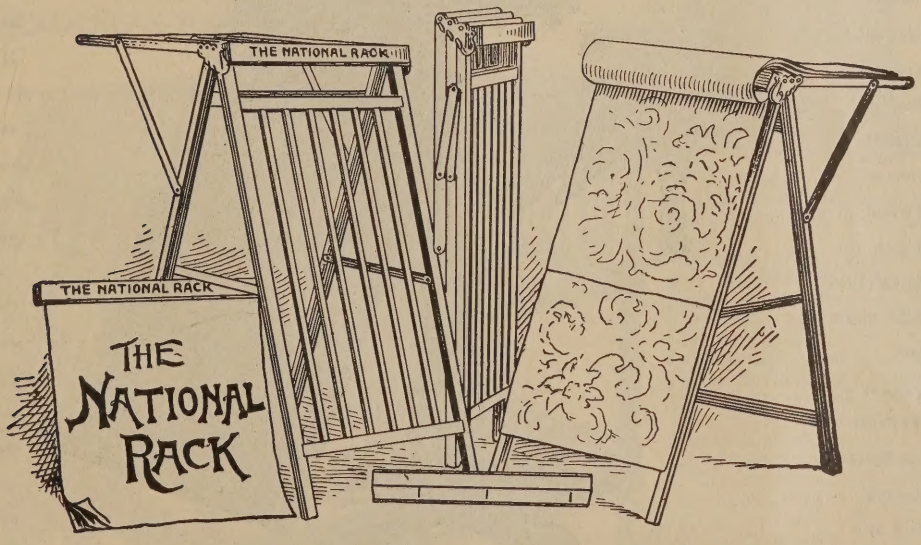
LITTLE LAKESIDE DISPLAY RACK.



No. 630.

No.		Each.
630	Nicely finished in ash, for showing Wall Paper samples on same principle as our No. 610, only on one side.....	$7.00

THE NATIONAL WALL PAPER RACK AND BINDER.



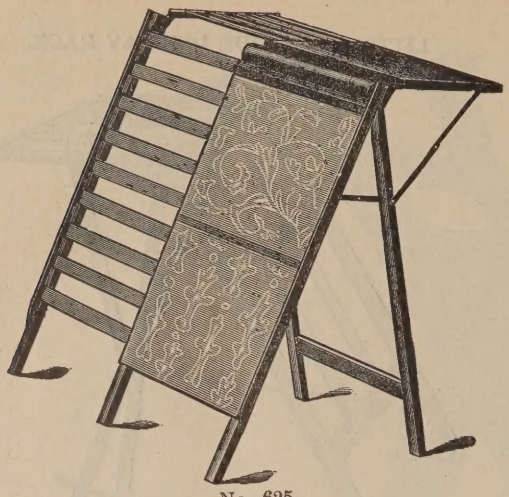
The first and only PERFECT BINDER made to bind Wall Paper in sample books. A pleasure to show Wall Paper where the National Rack is used. An ornament to any Store.

No.		Each.
650	Rack and Binder complete.....	$10.00
50	Extra Binders.....	1.50

SEE PERFORATED SLIP AND FRONT PAGES FOR DISCOUNT AND TERMS.

WALL PAPER DISPLAY RACKS.—Continued.

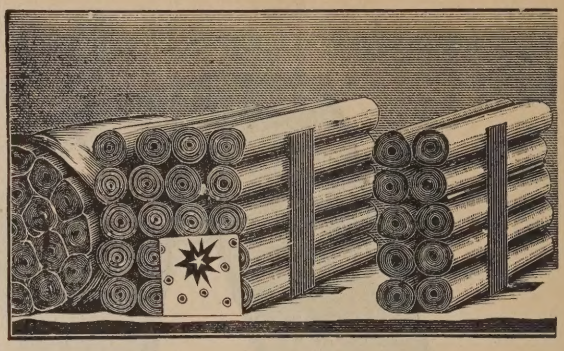
READING'S "KNOCK-DOWN" WALL PAPER EXHIBITOR WITH SLIDING EXTENSION.



No. 625.

No.		Each.
625	Same as No. 620, with sliding extension, for showing combinations	$11.00

ADJUSTABLE SHELF-PARTITIONS.



No.		
662	Made of japanned iron, and take up no shelf room, keep patterns separate, and stock can be condensed as sold, as Partition is movable. Packed 50 in a case.	
	Per case	$12.00
	Per dozen	4.00

LAKESIDE WALL PAPER DISPLAY RACK.

Will hold four hundred samples thirty-two inches long, two hundred on each side; Cut shows one side closed, samples locked up, raised to a level like a table, and out of the way of dust, etc. The side in operation is held at this angle, or any other desired angle, by a self-acting ratchet as shown by figure 2; The samples are held in place by a self-binding device which a child can understand and operate; no sample book is required as the binder does the work; a device is attached which will hold the border samples in proper place and at proper angle; 50 pieces of cardboard are supplied upon which the various widths of borders can be mounted. Built of hardwood, by skilled labor, and the handsomest Wall Paper Display Rack in the market.

CUT SHOWS RACK IN POSITION TO DISPLAY SAMPLES.

NO.		EACH.
610	Rack with Border Cards, complete	30.00
615	Extra Sets of Cards for Borders	4.00

READING'S TELESCOPIC EXTENSION WALL PAPER EXHIBITOR.

Patented January 5, 1892.

This Exhibitor is intended for showing wall paper in the roll. The special feature is the telescopic extension, by means of which it is instantly lengthened. The display leaf is supplied with a ratchet, so that it may be adjusted to any angle to secure the proper light on the goods.

The Exhibitor is made of oak and white wood finished antique, and provided with castors.

The display leaf is covered with an imitation of upholsterers' leather.

The regular size is four feet high, three feet eight inches long when closed, and six feet long when fully extended.

Special sizes made to order.

No.		Each.
635	44 inches, extends to 72 inches	$32.00

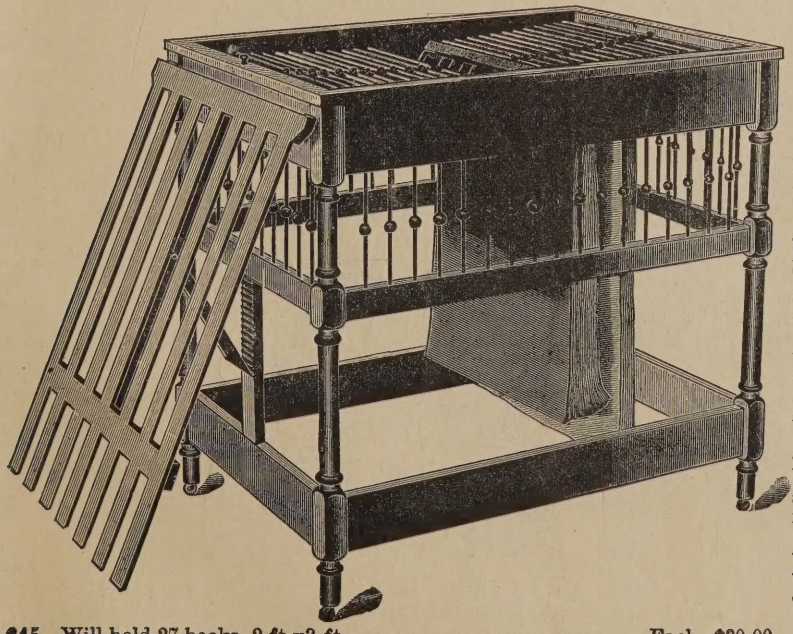
EXHIBITOR PARTLY EXTENDED.

LAKESIDE WALL PAPER SAMPLER.

No.		Per 100.
660	Made of heavy tin; size of surface for showing sample, 4½ inches square. The best device ever offered for sampling wall paper in bins	$8.00

No. 660

READING'S SAMPLE-BOOK STAND.



The most complete, economical and convenient device in existence for holding and showing sample books.

The cut fully illustrates the stand and the method of hanging and keeping the books when not in use. The display leaf at end is adjustable, and so simple as to need no explanation. The crossbars, upon which the books are hung, are attached to pivoted arms, which swing from side to side and make an opening of sufficient width to allow a book to be easily replaced.

The crossbars should be labeled to correspond with the books which belong to them. By this means any desired book can be quickly found and taken out or put back.

This stand is equally good for wall paper, window shade cloth, table and carriage oil cloth, and all other goods sampled in book form.

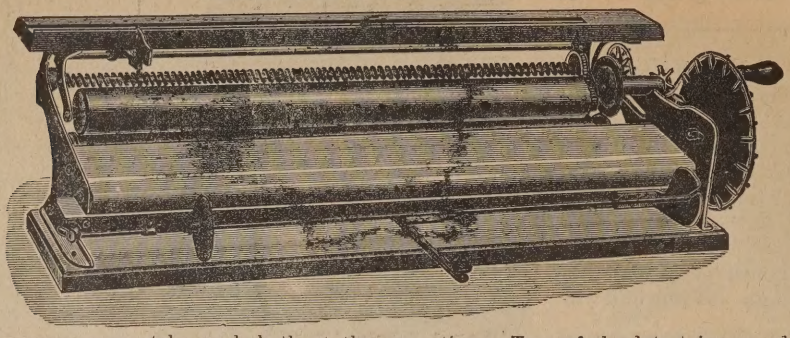
It is made of oak, well finished and mounted on castors.

645 Will hold 27 books, 2 ft. x 3 ft. ..... Each, $30.00

WALL PAPER TRIMMERS.

THE READING COMBINED TRIMMER AND MEASURING MACHINE.

Patented March 17, 1891, and May 16, 1893.



Will trim or measure separately, or do both at the same time. Two of the latest improved winding **rods go with** each machine. One is for rapid winding, and the other for close or compact winding. The latter makes the rolls as small and tight as when they left the factory.

As a Wall Paper Trimmer it is noiseless, rapid, simple and durable. It is the only Trimmer made without a noisy cog-wheel gear, and trims faster and makes a cleaner cut than any other machine in the market. It trims 22 inch paper, with any width margin up to 2 inches. The knives are made of the best saw steel, carefully tempered, ground and finished, and the whole machine is run by a single endless rubber belt. When the belt becomes slack from any cause, it can be instantly tightened by adjusting a screw provided for that purpose. A metal fender prevents the trimmings from winding into the roll, and conducts them away from the machine.

As a Measuring Machine it is rapid and accurate. Every inch of paper or border is honestly counted, and it never gets "rattled" nor forgets the number of yards measured. It automatically unrolls, accurately measures and compactly re-rolls the paper or border at one operation. It is useful in taking inventory or sorting up and measuring cut rolls and remnants; also for trimming and measuring off a single roll in filling orders.

No.		Each.
606	Combined Machine	$30.00
602	Trimmer only	20.00

ALLEN'S

Keystone Double Trimmer.

No.		Each
100	Two sets of cutting knives; trims both edges of the paper at the same time; makes a clean, true cut for butting; will trim either 20 or 22 inch paper; 200 pieces of paper can easily be trimmed (on both edges) in one hour	$30.00
